

C1 Pub D17 (amended) A method for securely transferring electronic funds comprising:

- (a) assigning at least one security attribute to a digital rights management container containing a digital representation of money, wherein the at least one security attribute precludes unauthorized access to the container containing the digital representation of money; and
- (b) transmitting the container containing a digital representation of money to a recipient.

C2 Pub D2 19. (amended) A method for receiving a digital rights management container containing electronic funds comprising:

- (a) receiving a digital rights management container containing a digital representation of money, wherein the container containing a digital representation of money has at least one security attribute which precludes unauthorized access to the container; and
- (b) entering security indicia, which allows access to the container containing a digital representation of money.

C3 Pub D5 55. (amended) A system for securely transferring electronic funds comprising:

- (a) means for assigning at least one security attribute to a digital rights management container containing a digital representation of money, wherein the at least one security attribute precludes unauthorized access to the container containing the digital representation of money; and
- (b) means for transmitting the container containing a digital representation of money to a recipient.

C4 Pub D6 73. (amended) A system for receiving a digital rights management container containing electronic funds comprising:

- (a) means for receiving a digital rights management container containing a digital representation of money, wherein the container containing a digital representation of money has at least one security attribute which precludes unauthorized access to the

container; and

C4 (b) means for entering security indicia, which allows access to the container containing a digital representation of money.

Aut Die 109. (amended) A programmed computer configured for securely transferring electronic funds comprising:

(a) a memory having at least one region for storing computer executable program code; and

(b) a processor for executing the program code stored in memory, wherein the program code includes:

C5 (i) code for assigning at least one security attribute to a digital rights management container containing a digital representation of money, wherein the at least one security attribute precludes unauthorized access to the container containing the digital representation of money; and

(ii) code for transmitting the container containing a digital representation of money to a recipient.

110. (amended) A programmed computer configured for receiving a digital rights management container containing electronic funds comprising:

(a) a memory having at least one region for storing computer executable program code; and

(b) a processor for executing the program code stored in memory, wherein the program code includes:

(i) code for receiving a digital rights management container containing a digital representation of money, wherein the container containing a digital representation of money has at least one security attribute which precludes unauthorized access to the container; and

(ii) code for facilitating the entry of security indicia that allows access to the container containing a digital representation of money.
